Navigator Dealer/Service Center: **Important Warranty Information**

Warranty Department;

Navigator prides itself on delivering a well built, low maintenance machine. Our technicians put every Navigator through a thorough inspection process prior to delivery. It is important that our dealers also perform pre-delivery inspections in order to insure the end user receives a machine free of defect. An outline of a pre-delivery inspection is available from Navigator.

Navigator makes every effort to pay warranty related claims in a fair and timely manner. However, we have received many warranty claims that do not meet the criteria for payment. For the most part, Navigator has paid these claims. As of the date of this letter, Navigator will no longer pay any claims that are not properly submitted.

Some of the most common problems are as follows:

1. **The defective part(s) must be returned to Navigator within (10) working days.**
2. **The warranty claim must be submitted within (30) days.**
3. **ALL information must be completed on the warranty claim form.**
4. **The claim form must be legible.**
5. **Do not claim maintenance or adjustment items.**
6. **Included a detailed description of work preformed.**

It is a good idea to call Navigator for verification that the parts and or warranty claim has been received. The most recent revision of the warranty claim form is available at [www.navigatorforklift.com](http://www.navigatorforklift.com) or by calling Navigator. You may also call to request a copy of Navigator's warranty policies and procedures.

Also, some claims have been submitted that indicate damage that is likely due to improper mounting or misuse. On these type claims, it is necessary for the service center to perform a minimum level of investigation. Improper mounting can damage the forklift. Any claim due to improper mounting or misuse of any kind will be denied.

Please contact Navigator regarding any questions or concerns you may have. Thank you for taking time to consider these matters.

Navigator's obligation under this warranty shall not include any transportation charges or any liability for direct, indirect or consequential damages or delay. Any improper use, operation beyond capacity, substitution of parts not approved by Navigator, or any alteration or repair by others in such manner as in Navigator judgment affects the product materially and adversely shall void this warranty. The remedies set forth herein are exclusive, and the liability of Navigator whether in contract, in tort, under any warranty, or otherwise, shall not, except as expressly

Purchaser assumes all risk and liability resulting from the use of the Equipment, whether used singly or in combination with other goods or equipment. Neither Navigator nor the Distributor assumes, nor is any Seller or any other person authorized to assume for Navigator, any other liability in connection with the sale or use of the equipment, and there are no oral agreements or warranties collateral to or affecting the sale of the Equipment. **NO PERSON IS AUTHORIZED TO MAKE, ON BEHALF OF NAVIGATOR, ANY REPRESENTATIONS OR WARRANTY BEYOND THOSE EXPRESSED HEREIN.**

If any warranted parts or components prove to be defective within the warranty period, contact any authorized Navigator Distributor or Chrisman Mfg. Inc.
